

Monthly Indicators

February 2020

As we progressed through February, the actual and expected impacts of COVID-19 continued to grow, with concerns of economic impact reaching the stock market in the last week of the month. As the stock market declined, so did mortgage rates, offering a bad news-good news situation. While short term declines in the stock market can sting, borrowers who lock in today's low rates will benefit significantly in the long term.

New Listings increased 0.1 percent for Single Family and 0.4 percent for Townhouse/Condo. Pending Sales increased 23.4 percent for Single Family and 13.3 percent for Townhouse/Condo. Inventory decreased 32.3 percent for Single Family and 27.3 percent for Townhouse/Condo.

Median Sales Price increased 13.0 percent to \$260,000 for Single Family and 5.3 percent to \$159,500 for Townhouse/Condo. Days on Market decreased 15.7 percent for Single Family and 18.2 percent for Townhouse/Condo. Months Supply of Inventory decreased 38.5 percent for Single Family and 27.8 percent for Townhouse/Condo.

The recently released January ShowingTime Showing Index® saw a 20.2 percent year-over-year increase in showing traffic nationwide. All regions of the country were up double digits from the year before, with the Midwest Region up 15.7 percent and the West Region up 34.1 percent. As showing activity is a leading indicator for future home sales, the 2020 housing market is off to a strong start, though it will be important to watch the spread of COVID-19 and its potential impacts to the overall economy in the coming months.

Housing Affordability Index

This index measures housing affordability for the region. For example, an index of 120 means the median household income is 120% of what is necessary to qualify for the median-priced home under prevailing interest rates. A higher number means greater affordability.

February

Year to Date

Affordability Index	Single Family	Year-Over-Year Change	Townhouse / Condo	Year-Over-Year Change
